Terms & Conditions

Estimates/Ordering

- The price quoted on an estimate will be valid for eight weeks from the date of estimate.
- Placing an order with us will constitute acceptance of these terms and conditions.
- An order will not be deemed to have been accepted without a deposit.
- Cancellation of an order prior to fitting will result in the forfeiture of any deposit paid to cover the cost of materials which will have already been purchased.
- Our estimate does not include any electrical or plumbing work required, nor does it include the removal and disposal of existing worktops.
- In the event that we are unable to supply the material chosen, we will offer a substitute at the same rate. If the substitute is not acceptable and a more expensive material is chosen, we reserve the right to charge for the increased cost.
- An order will be accepted subject to the material being available in the quantities needed. We reserve the right to suspend delivery in the event that the material becomes unavailable, in circumstances beyond our control.
- We reserve the right to alter the price following templating if any additional work is required or measurements are considerably different from those originally given.

Payment

- A deposit needs to be paid with an order. The balance will be due on the day of fitting worktops and due one week prior to fitting stonework, etc. A fitting date cannot be secured until payment has been cleared. Any balance outstanding after work is completed will be charged interest at a rate of 6% over the bank of England Base Rate.

Fitting

- Our templating and fitting dates are given in good faith. In exceptional circumstances, if we are unable to meet the dates given, we will not be liable for the consequences of amending the date. We will endeavour to give as much notice as possible.
- All our installation work is guaranteed for a period of 5 years after fitting.

Comments

- All goods remain our property until paid for in full.
- Granite & marble are products of nature, it is not possible to guarantee that all the colours and markings of a large deposit will be present in every small sample and that every characteristic of this sample will be uniformly present in other samples. Our sample therefore serves only to indicate, in a general way, the colour, markings and texture usually found in that variety.

Placing an order with us will confirm agreement to the above terms and conditions.
